[Alexandrite Garnet on Apr 4 2009, at 14:26](#)

<![CDATA[There is a reason why [Richard Wise](#) called color changing garnet - Alexandrite Garnet. But I think it refers to the blue color change garnet from Madagascar.

Color change garnets are one of the rarest and most fascinating gemstones. The color change can be intense and even more dramatic than the color change of top quality alexandrite.]]>

See Alexandrite Tsarstone collectors guide, Alexandrite Garnet, <http://www.alexandrite.net/viewpage.html?id=FRM-341-00001> (Color change Garnet is a mix of spessartite and pyrope garnet from Africa) (as of).
