

## Flux inclusions

### Flux inclusions

Inclusions, which are produce by hydrothermal synthetic emeralds by presence of wispy or veillike groups, manufactured by Chatham, Gilson, and Zerfass. That is an unmistakable characteristic of flux-fusion or flux-melt method.

See Alexandrite Tsarstone collectors guide, Definition of Flux inclusions, <http://www.alexandrite.net/viewpage.html?id=GG-091-00003> (Inclusions, which are produce by hydrothermal synthetic emeralds by presence of wispy or veillike groups, manufactured by Chatham, Gilson, and Zerfass. That is an unmistakable characteristic of flux-fusion or flux-melt method.) (as of ).
